

SAMPLE ACADEMIC RESEARCH COOPERATION AGREEMENT

This agreement is entered into between XG Sciences, Inc., of Lansing, MI 48911 (hereafter "XGS") and University of _____ (hereafter referred to as the "COLLABORATOR").

Background: XG Sciences, Inc. is a Michigan Corporation that manufactures xGnP® GRAPHENE NANOPLATELETS and related materials. The xGnP® trademark is our designation for our product line of bulk materials. XGS manufactures these nanoplatelets through patented and proprietary techniques that allow us to control their size, surface characteristics, and purity.

Field of Research:

Under this agreement the parties agree to:

1. XGS agrees to provide reasonable amounts of xGnP® GRAPHENE NANOPLATELET samples to the COLLABORATOR at no cost. xGnP® samples are to be utilized in the field of research. The COLLABORATOR agrees to pay shipping costs of the xGnP samples.
2. XGS will make its technical staff available for telephone conferences on a regular basis to share know-how and experience in the field of research upon request.
3. XGS may offer small amounts of experimental xGnP samples to the COLLABORATOR prior to their commercial release.
4. The COLLABORATOR SHALL present to XGS staff its research results utilizing xGnP® in the field of research upon request or prior to any COLLABORATOR publication.
5. XGS shall be cited appropriately in all publications pertaining to the utilization of xGnP in the field of research by the COLLABORATOR.
6. This Agreement shall not be construed to grant either party any license or other rights under any inventions, letters of patent, or trade secrets now or hereafter licensable by the other party.
7. This agreement shall be interpreted and enforced under the laws of the state of Michigan.

The effective date of this agreement shall be _____.
